Established in 1916 by the National Academy of Sciences under its Congressional
Charter and organized with the cooperation of the National Scientific
and Technical Societies of the United States

DIVISION OF MEDICAL SCIENCES

COMMITTEE

for

RESEARCH IN PROBLEMS OF SEX

15 February 1947
333 Cedar Street
New Haven 11, Ct.

Dr. A. C. Kinsey
Indiana University
Bloomington, Indiana

Dear Doctor Kinsey:

The Committee for Research in Problems of Sex again needs your assistance as a cooperating investigator. In preparation for the formulation of our program of work and budget for the next fiscal year, we should like an informational statement from you to supplement our present knowledge of the progress of your research.

In case the work for which you are now receiving assistance from the Committee will not be completed by 30 June, 1947, we hope that you will send us, not later than April 1st, a report covering its status, plans for completion or extension, and a statement of any additional assistance needed and the proposed uses for any grant which you may request. You will, of course, feel at liberty to propose any new research project or problem which you may have in mind and consider appropriate.

You may be sure that in reshaping its program of research and its budget for the fiscal year which begins 1 July, 1947, the Committee will consider the relations of your needs to its policy and commitments and, if practicable, offer its cooperation.

It will facilitate our business arrangements if you will kindly address your reply to the Chairman of the Committee, Yale University School of Medicine, 333 Cedar Street, New Haven 11, Connecticut.

Very truly yours,

R. M. Y.

Robert M. Yerkes
Chairman
